BBB Accredited since April 1989

Freedom Dodge Chrysler Jeep is celebrating its 20th anniversary this year. President Paul Cleaver says "We have been blessed by over 50,000 vehicle sales along with service, parts and body shop sales that have grown 5 times over since our inception."

The dealership began as Freedom Dodge in 1989 as a stand-alone Dodge dealership then added Jeep in 1991 and acquired Bluegrass Chrysler in 1997 to compliment all three brands in the Chrysler family, Cleaver explains.

"Our dealership has been a proud BBB Accredited Business since our beginning in 1989," Cleaver says. "I am also proud to have served on the BBB Board of Directors. Ethical business is very important to keep the marketplace going strong, and we feel it's very important for customers to be able to check our record and see that we do business ethically. Other businesses that want to show their concern and support for ethical business should seek an invitation to join the BBB."

Freedom has been a "5-Star Dealer" for 11 years, Chrysler's highest award for outstanding customer satisfaction for sales and service. Freedom has continually supported various charities in Central Kentucky. In 2008 we were recognized as a Finalist in the Republic Bank "We Care" awards, and supported many other organizations through the years.

Cleaver is also past chairman of the Kentucky Auto Dealers and was the Time Magazine Quality Dealer of the Year in 2008. "We look forward to the next 20 years selling and servicing vehicles for customers of Central Kentucky," he says.
